Measure DXT Overhead with IOR Benchmark on Cori

- ## Evaluation Environment

  - 4096 processes perform concurrent I/O in an interleaved access pattern on shared file

  - **IOR Config** [FileSize: 16TB, BlockSize: 4MB, TransferSize: 4MB, Aggregators: 128]

  - **Lustre Config** [128 OSTs, 128 Clients, Stripe Size: 4MB, Stripe Count: 128]

- ## The overhead is less than 1%
